

## A pre-coding game for 4-6 year olds

In a world filled with captivating creatures and bright colors, 4-6 year olds will join a monkey on a mission to collect bananas and unlock treasure chests. All the while, they will explore and learn the basics of code as they use blocks to program a monkey's journey through the world.

Jump-start your students' learning  
with the foundations of code!

### Concepts Taught:

- Logic
- Algorithms
- Sequencing
- Loops
- Counting
- Direction/Orientation
- Procedures
- Conditional Loops

### Preschool & Kindergarten:

Using blocks, preschoolers will build a set of visual coding instructions that will help lead a monkey to a treasure chest. Along the way, they will learn and practice coding concepts. Best of all, they do not need to know their ABC's!

### No Experience Needed:

No coding experience necessary to teach or play! With CodeMonkey's teacher resources, educators have all the tools and support they'll need.
